WHO WE ARE...

MR. THULASIDHARAN BHASKARAN

Metal Crafts Constructors Private Limited was formerly known as Metal Crafts Engineers & Contractors. The company was founded by Mr. Thulasidharan Bhaskaran during the year 1992. The company is working in the fields of construction and engineering for more than a decade. Since then, the company has grown by its strength, mainly manpower and its rich experience. We are successful in earning and maintaining good will in all our areas of operation on account of our sincerity in dealings, quality consciousness of our men and our enthusiasm to deliver good & services in time.

We provide services to industrial giants and executes industrial projects. We are at present working in the areas of fabrication & erection of piping, structural & equipments, supply of engineering materials, supply of manpower, design & detailing of piping & structural and maintenance jobs of refineries, petrochemicals, fertilizers plants, power plants & steel plants. We also execute cross country pipe line projects.

We take in the quality of our work but equally important are the business ethics in which we firmly believe & adhere to. We value the relationships we have built up & being maintained with our customers. We are proud of our reputation as a highly quality conscious and professional contractor for mechanical works. We provide a highly qualified and experienced team of engineers, supervisors & work men to our clients for execution of projects.

GROUP OF COMPANIES:

METAL CRAFTS CONSTRUCTORS PVT LTD

Construction Division - 1

METAL CRAFTS TECHNICAL SERVICES L.L.C

Construction Division - 2

METAL CRAFTS ENGINEERS & CONTRACTORS

Construction Division - 3

WELL TECH ENGINEERS & CONTRACTORS

Construction Division - 4

REXZION SOLUTIONS PVT LTD

Design & Detailing Division

METAL TECH INSPECTION SERVICES

NDT & PWHT Division

VISION & MISSION

"Every Great achievement was once considered impossible"

The Vision and Mission installed in the Company by its founder have been an inspiration to management and supporting personnel throughout its history and we proud to preserve his vision and value as guiding principles for our future.

VISION

To grow and glow to be a name to be reckoned with Internationally in the field of Engineering, Procurement & Construction and to achieve recognition in construction of Oil & Gas, Power, Chemical and Steel Plants in India as well as abroad.

MISSION

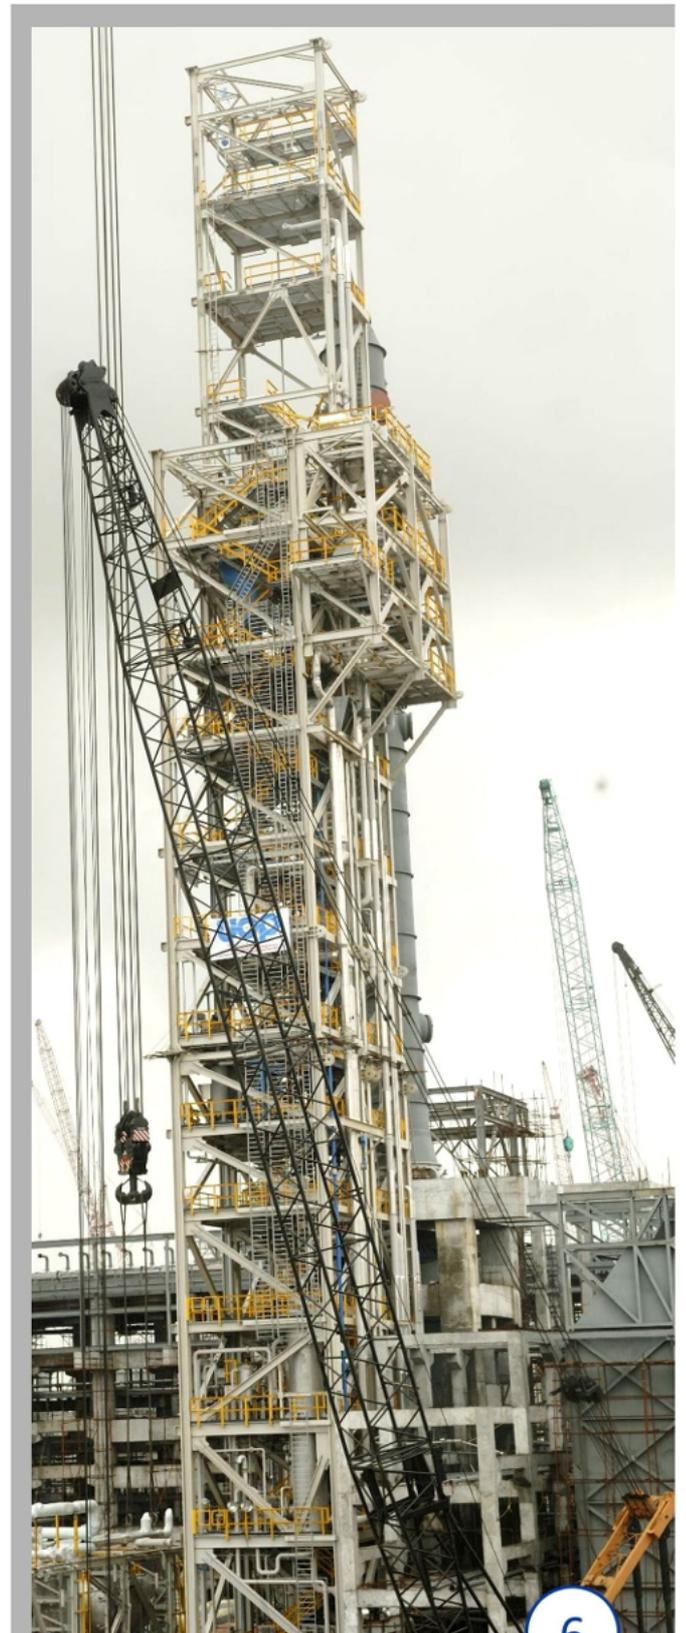

Commitment to excellence and dedication to quality in all our activities.

Surpass the expectations placed upon us by our clients through anticipating their needs, provide them with innovative solutions and deliver on our commitments to them.

Enhance our capabilities and expertise by investing in our personnel, processes, plant and equipment.

Provide our employees with a challenging and rewarding career path as their contribution and loyalty have been instrumental in our success to date.

Adhere to a safety-first approach in all our operations.

QUALITY & SAFETY

QUALITY

We, at Metal Crafts emphasize to maintain high quality in all our operations and the best of our efforts are being put up throughout to achieve the same which has helped in projecting ourselves as a distinguished player in the area of construction.

We strive to enhance this attribute of our group of companies so that we shall be identified as a leader among our competitors which in due course will improve reputation and growth.

WORK SAFETY

We adhere to an employee safety-first approach in our operations. The benefit of this approach of this work can be evidenced by millions of accident-free work hours we have achieved. We constantly review and upgrade our onsite safety training programs and procedure to international standards to maintain our commitment to work.

Metal Crafts have achieved certification of ISO 9001-2008 for Quality and OHSAS 18001-2007 for Environment and Health & Safety Management System.

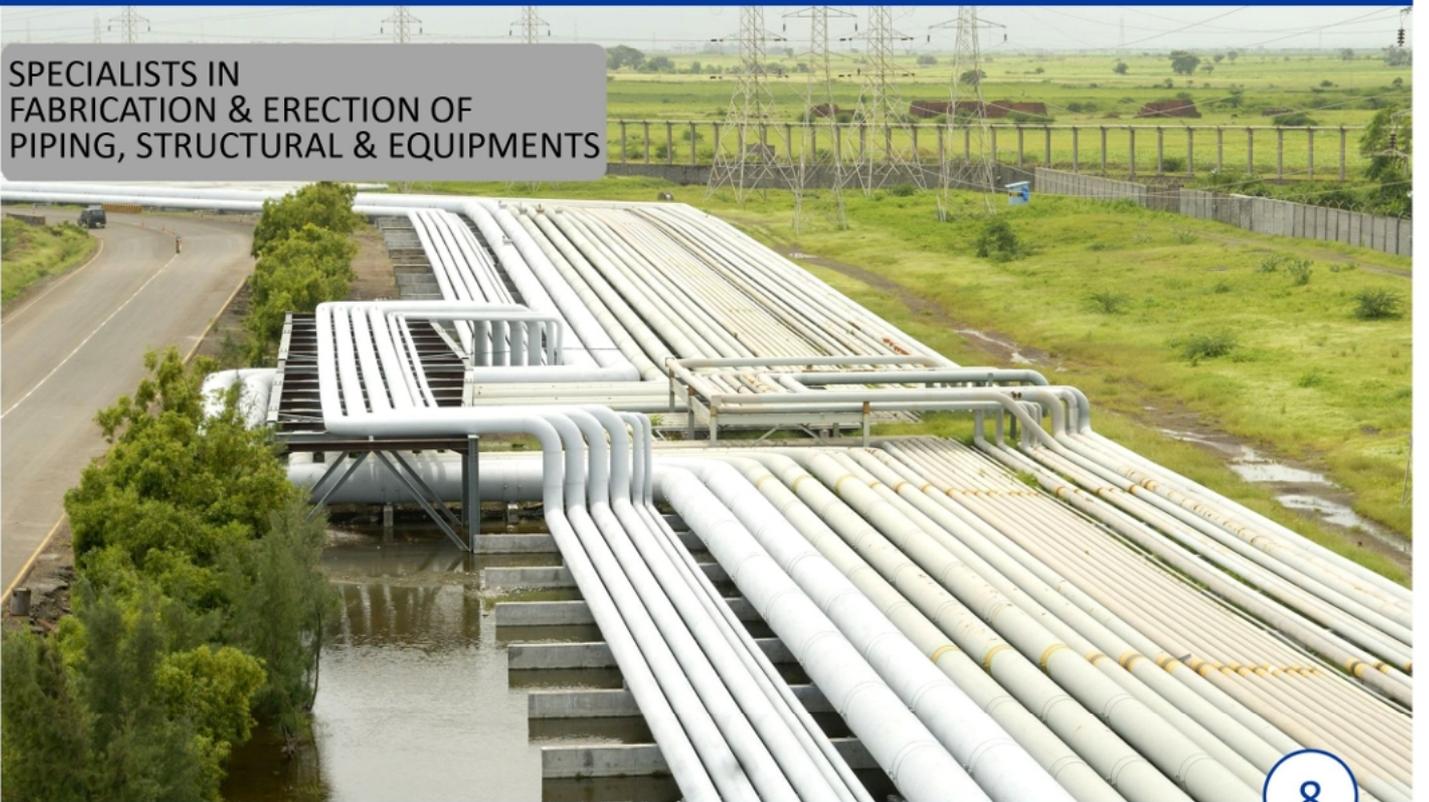

Metal Crafts
Constructors Pvt. Ltd.

AN ISO 9001-2008, OHSAS 18001-2007 CERTIFIED COMPANY

ADDING AN EMPOWERED
CONSTRUCTION VALUE

SPECIALISTS IN
FABRICATION & ERECTION OF
PIPING, STRUCTURAL & EQUIPMENTS

FIELDS OF OPERATION

MECHANICAL

- Design & Detailing of Piping & Structural.
- Fabrication & Erection of Structural & Piping.
- Equipment Erection / Maintenance of Static & Rotary.
- PWHT of Welded Pipe Joints.
- Surface Preparation & Painting of Structural & Piping.
- Specialist in Shut Down Jobs of Refineries, Fertilizers, Petro Chemical Plants, and Power Plants.
- Fabrication & Laying of Cross Country Pipe Lines.
- Supply of Skilled Manpower.

ELECTRICAL

- Transformer Installation & Energization.
- Switchgear Installation.
- MCC Installation.
- Cable Laying & Termination.
- Telecom & IT System Installation.
- Cathodic Protection System Installation.
- Motor Installation & Cable Termination.
- CCTV Installation.
- Lighting & Grounding System Installation.

CIVIL

- Excavation in all Strata of Soils.
- Back Filling and Compaction.
- Site Grading, Leveling & Landscaping.
- Plain and Reinforced Cement Concreting.
- Rubble and Brick Masonry works & Flooring.
- Grouting.

EXPERT IN

All kinds of Steel structure Fabrication, Assembly, Welding and Erection of Pumps, Motors, Equipments etc.

Expertise in modular fabrication of skids and modules for any application - CCR/Recovery Plus/Merox Modules, Offshore Decks, Heater sections - anything can be modularized to suit the requirements.

A single - point solution for Structural works - right from detail engineering to fabrication, erection, alignment and all associated works.

Fabrication and Erection of Piping (IBR & Non IBR)

Piping fabrication and installations of any size, type, or quantity on a variety of materials like Carbon Steel, Hast Alloy, Monel, Incolloy, Aluminium etc. for any kind of process plants.
